openai-python v3.22.0 released

From: GitHub

Source: GitHub

The Brief

****What shipped****

OpenAI released version 3.22.0 of the openai-python library on September 29, 2026.

****Capabilities****

This version adds the ability to use computer resources with beta agents, enabling new functionalities for developers working with OpenAI's API. The specifics of performance improvements or benchmarks are not detailed in the release notes.

****Availability****

The updated library is available for download from GitHub, and users can access it via the OpenAI API. Pricing and tiers for API usage are not stated in the release notes.

****Why it matters****

This update introduces enhanced capabilities for developers leveraging OpenAI's models, potentially allowing for more complex applications and interactions with computer resources within the API framework.

****Caveats****

The release notes do not provide detailed performance metrics or benchmark comparisons, and the feature is listed as in beta, which suggests potential limitations or instability.

Full Announcement Details

OpenAI released version 3.22.0 of the openai-python library on September 29, 2026. This version adds the ability to use computer resources with beta agents, enabling new functionalities for developers working with OpenAI's API. The specifics of performance improvements or benchmarks are not detailed in the release notes.
