

anthropic-sdk-python v1.7.0 released

From: GitHub

Source: GitHub

The Brief

****What shipped****

Anthropic released version 1.7.0 of the anthropic-sdk-python.

****Capabilities****

This version includes a new feature to add a group with `display_name` to rate limits and deprecates the `group_type`. Additionally, it introduces a function called `compact_before_next_turn()` for the tool runner.

****Availability****

The SDK is available on GitHub for download. There are no specific pricing details or access tiers stated.

****Why it matters****

This release may improve user management of rate limits and enhance the functionality of the tool runner, potentially streamlining development processes for users.

****Caveats****

The release notes do not provide detailed benchmarks or performance metrics related to these new features, and the impact of these changes on existing workflows is not elaborated.
