Meta Muse Spark Open is live on Together AI

From: Together AI

Source: Together AI

The Brief

What shipped
Meta Muse Spark Open, an open-weight model for agentic coding, is live on Together AI.

Capabilities
Muse Spark Open features a 1M-token context window, enabling it to manage entire projects and complex dependencies. It supports multimodal input, including text, images, audio, and video, and is designed for long-horizon autonomy in coding workflows.

Availability
Muse Spark Open is available today via the Together API, with pricing set at $1.25 per 1M input tokens, $4.25 per 1M output tokens, and $0.15 per 1M cached input tokens.

Why it matters
This model allows for more efficient handling of complex coding tasks and long-running workflows, potentially reducing the time and effort required for software development and debugging.

Caveats
The announcement does not provide benchmark performance metrics or specific use case validations beyond early access feedback, and the claims regarding its capabilities are based on early evaluations.
