

GPT-6 Astra Solves a WWI German Radio Cipher

From: Hacker News

Source: Hacker News

The Brief

****What shipped****

GPT-6 Astra, a new model by OpenAI, was announced.

****Capabilities****

GPT-6 Astra reportedly solves complex problems, such as deciphering a WWI German radio cipher. Specifics on modalities, context length, benchmark numbers, or speed/quality claims are not provided.

****Availability****

Not stated.

****Why it matters****

This advancement in AI capabilities could enable new applications in cryptography and problem-solving for developers working with language models.

****Caveats****

The announcement lacks detailed evidence or verification of the claims made regarding the model's capabilities.

Full Announcement Details

GPT-6 Astra, a new model by OpenAI, was announced. GPT-6 Astra reportedly solves complex problems, such as deciphering a WWI German radio cipher. Specifics on modalities, context length, benchmark numbers, or speed/quality claims are not provided.
