## anthropic-sdk-python v1.9.0 released

From: GitHub

Source: GitHub

---

### The Brief

#### **\*\*What shipped\*\***

Anthropic released version 1.9.0 of the anthropic-sdk-python.

#### **\*\*Capabilities\*\***

This SDK version introduces a new thinking type called `between_tools` and adds functionality for the model `claude-sonnet-5-5`. Additionally, it includes parameters such as `include_inherited` and `source` for works, enhancing API usability.

#### **\*\*Availability\*\***

The SDK is available on GitHub for download. Specific pricing and tiers are not stated.

#### **\*\*Why it matters\*\***

This release expands the capabilities of the SDK, allowing developers to integrate new features and models, potentially improving the functionality of applications built on the Anthropic API.

#### **\*\*Caveats\*\***

Details about the performance metrics or operational benchmarks for the new features have not been provided, and the implications of these updates on existing workflows are not specified.

---
